

# The new Digital Overlamine Range

Protect and enhance your inkjet images

Our new and improved monomeric and polymeric DOL ranges allow converters to protect inkjet images against challenges such as UV radiation, fingerprints and abrasion - keeping prints fresh for longer.

The products create highly appealing finishes for completed graphics, and options are available for flat surfaces (monomeric DOL 3400 series) as well as more demanding applications on curved surfaces with extended product durability (polymeric DOL 2400 and DOL 2800 series).

Adding a uniform gloss, matt or lustre finish enhances colours and ensures maximum visual appeal. All of the upgraded products in the range come with an improved backing paper, with excellent release/tear characteristics, and a smoother facestock ensures a glossier finish for DOL 3460, DOL 2860 and DOL 2460 series. These materials offer one of the widest range of choices of width, finish and durability on the market. They meet many different medium-to-long term application needs including architectural, fleet, indoor and outdoor graphics.

## KEY FEATURES

- > Smoother face stock finishing allowing to add a higher gloss finish, and a uniform matt or lustre effect to your digital prints
- > Protects images against UV radiation and abrasions (printed with solvent, eco-solvent & latex inks)
- > Stronger & thicker backing paper
- > Available on all common sizes : 1.067m, 1.37m, 1.52m and 1.6m
- > Durability 2 years (DOL 3400 series), 3 years (DOL 2800 series) or 5 years (DOL 2400 series)

## KEY BENEFITS

- > Enhance colours for a sharper visual appearance
- > One of the widest options in the market in terms of size and finishing
- > Excellent release performance for reliable handling
- > Reinforced tear resistance properties
- > Suitable for short, medium term promotional or event applications for both indoor and outdoor uses on flat & curved surfaces

## RECOMMENDED USES

All applications where high quality finishing and short, medium and long term durability are required. The new DOL range is the ideal graphic protection for architectural, fleet, indoor and outdoor graphics.

## Product Overview

		Monomeric range	Polymeric range	Premium Polymeric range
Overlaminates	<b>Gloss</b>	DOL 3460	DOL 2860	DOL 2460
	<b>Matt</b>	DOL 3480	DOL 2880	DOL 2480
	<b>Lustre</b>	DOL 3470		DOL 2470
Thickness		80µm	80µm	80µm
Backing paper		Kraft paper, 95 g/m <sup>2</sup>	Kraft paper, 95 g/m <sup>2</sup>	Kraft paper, 135 g/m <sup>2</sup>
Printed durability		2 years	3 years	5 years
Recommended to be used with		MPI 3000 series	MPI 2800 series	MPI 2000 series
