

Avery Dennison®

Floor graphics series

A lasting impression – floor marking, promotions, decoration and wayfinding.

The Avery Dennison Digital Floor Graphics portfolio gives you more innovative, eye-catching and durable floor marking, decoration and campaigns. Printable MPI™ films and improved dedicated DOL materials can be used across a very wide range of potential venues.

RECOMMENDED USES

- Interior retail floor marking, decoration, advertising and promotions
- Short-term indoor exhibitions
- Durable floor graphics for transport hub wayfinding
- Hospitality venues and office interiors

KEY FEATURES

- Excellent image quality with MPI 3001/3001 HOP/3026 SuperTack and MPI 2001/2002/2006 HOP hi-tack
- Improved protection and added slip-resistance with DOL 6000, DOL 5900 and DOL 5800 transparent matt textured overlaminates
- Trouble-free maintenance
- Slip resistance and fire classification ratings available
- Optimal size configuration of 1.37 x 50 lm for both printable media and overlaminates
- Alternately, MPI 6021 is a directly printable film with a built-in anti-slip surface, no need for an overlaminate

Floor graphics series
