

Avery Dennison 800 Premium Cast™

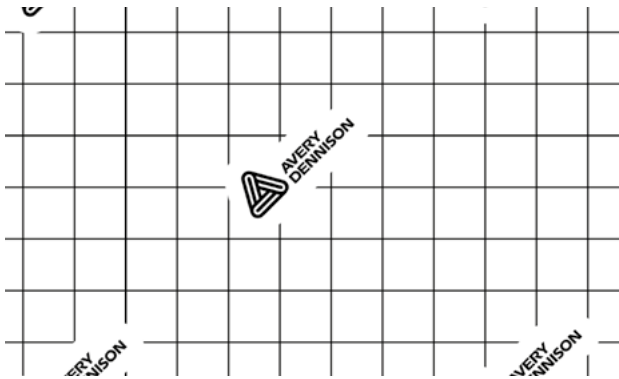

The advanced choice when performance matters.

The Avery Dennison 800 Premium Cast portfolio is a unique medium-to-long life sign-cut range for both indoor and outdoor applications. It makes installation easier, with excellent dimensional stability over corrugations, simple/compound-curved substrates and rivets.

Exceptional adhesive performance and face film stability allow for fast and accurate application of finished lettering and graphics to curved and corrugated surfaces. Enhanced aesthetics is provided by exceptional finish in high gloss and ultra matt.

A wide selection of 85 standard gloss, matt and metallic colours is designed to suit most projects. It also extends the application range thanks to the availability of the Hi-Tack adhesive for low energy substrates and of the Easy Apply™ technology for faster installation.

If you need more, an exclusive Avery Dennison colour matching service means you can achieve the precise look you need for particular applications - with a convenient 5-roll minimum order and short lead times.

Key features

- Excellent conformability and easy handling on curved and corrugated surfaces
- Optimal lay-flatness and stability during cutting and weeding
- Choices available with blue contrast backing paper for ease of conversion (800 Premium Cast™ White and 830 Premium Cast™ White Matte)
- Improved adhesive performance allowing to recuperate sign cut material when applied on vinyl
- Increased dimensional stability over time
- New Avery Dennison grid liner, for easy manual cutting and converting

Key benefits

- Outstanding durability: up to 10 years outdoors
- Backed by the ICS Warranty programme for maximum peace of mind
- 85 standard colours, including high gloss, matt and metallics
- Custom colour match service with a MOQ of 5 rolls (250 lm)
- Vibrant retail signage, way-finding, decorations, outdoor ads and vehicle graphics
- RAL colour references allow for a precise colour selection

Recommended uses

Avery Dennison 800 Premium Cast can be used for lettering and decorations across many market segments:

- Vehicle graphics (rigid sided)
- Graphics on marine crafts and recreational vehicles
- Directional signage
- Window graphics
- Retail signage
