

Avery Dennison® Workshops Architecture trainings

Everything you need to master the tricks of the trade

With more than 15 years experience in providing training to the graphics industry, Avery Dennison is the perfect choice to support you with your graphic application training needs. Whether it be the fundamentals of self-adhesive material handling or developing the skills to obtain Specialist Installer status - we have it covered.

What we offer

- > A broad portfolio of training workshops for vehicle and architectural application
- > Trainings to cover for all levels of experience and expertise
- > Available in multiple locations across Europe in local language
- > Trainings conducted by professional Avery Dennison certified Specialist Trainers
- > A great balance of theory and hands-on learning

Why join us

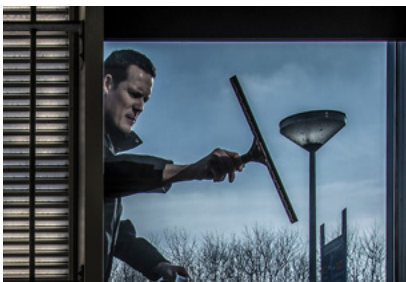

- > A great way to gain hands-on application experience and build confidence
- > Get personal assistance to practice techniques and master the skills of the trade
- > Understand how materials behave and the benefits of using a professional tool kit
- > Meet other professionals to exchange ideas and experiences

Fundamental training

Application Fundamentals

Up to 12 participants, 1 day

An extensive introduction for any professional in the field of sign-making, wrapping or conversion. A balanced mix of classroom training (learn about different self adhesive materials, production methods and product performance) and hands-on application. Tackle the fundamental aspects of applying self-adhesive films.

No background or experience required

Avery Dennison 900 film, MPI1104/ MPI1105 or other Avery Dennison car wrap materials

Lunch and refreshments

Specialist Installer Programme

Avery Dennison Specialist Installer Programme

1 day

A unique certification programme for individual installers gives you the skills and confidence you need and the credentials your customers are looking for. The Specialist Installer programme is a three-step process (application-examination-certification) which will allow installers to differentiate themselves from competition, be a part of the elite network of Avery Dennison Specialists and be eligible to work on high value specifications projects with ICS warranty.

Graphics Academy

Painting with Film I Facade Film introduction

1 day

This is a one day training, providing an introduction to the world of Facade Film - a self-adhesive film specially developed for building renovation - for restyling of exterior panels, claddings and window frames. During the training you will learn the advantages of film versus paint, how to prepare various surfaces, and practice the techniques of film application onto panels and frames. Suitable for vinyl installers, painters or others looking to gain experience and expand their capabilities in working with self-adhesive materials for building renovation.

No background or experience required.

Lunch and refreshments

Painting with Film II Facade Film Master Level & Certification

1 day

This training is for professionals who wish to become part of the Avery Dennison Specialist Facade Installer network (SFI) - enabling collaboration on projects where Avery Dennison Platinum Warranty is required. You will expand your knowledge on how to recognize and treat various substrates and practice installation techniques. After that, a theoretical and practical examination will be held to test the applicant's knowledge and skill set.
