

Brand Identity Amplified

Avery Dennison®
Corporate Branding Solutions

Branded graphics are a key driver in consumer awareness, establishing a presence and connecting with target audiences.

From vehicles, walls, floors, and outdoor signage, the Avery Dennison Corporate Branding portfolio helps brands amplify their identity to attract and convert potential customers.

The Avery Dennison Story

Ray Stanton (“Stan”) Avery invented the world’s first self-adhesive label as a way to merchandise objects. In 1935, he founded Avery Adhesives in downtown Los Angeles and, in 1990, the company merged with Dennison Manufacturing to form Avery Dennison. We have grown from one bright idea into a global Fortune 500® corporation that continues to advance quality and innovation in materials science.

The company’s products, which are used in nearly every major industry, include pressure-sensitive materials for labels and graphic

applications; tapes and other bonding solutions for industrial, medical and retail applications; tags, labels and embellishments for apparel; and radio-frequency identification (RFID) solutions serving retail apparel and other markets. Headquartered in Glendale, California, we employ more than 30,000 employees in over 50 countries and have the global breadth of resources to support operations worldwide.

Avery Dennison is a trusted provider of the right graphics solutions to help brands visually showcase their purpose and products to customers. From films for branded fleet vehicles to wall and floor graphics, our materials deliver superior performance and ease of use. Avery Dennison Corporate Branding Solutions helps brands promote a cohesive look and message across multiple visual platforms to attract and convert potential customers and build brand loyalty.

Benefits of a Cohesive Message with Branded Graphic Solutions

- **Identification:** Consistent and clear branding makes a lasting and memorable impression with desired audiences.
- **Credibility:** Building trust among customers and making a brand more authoritative in the marketplace develops the credibility brands require for sales and share growth.
- **Greater ROI:** A recognizable brand that provides essential value helps to attract future business and generate loyal advocates. And, these advocates like to visually “share” their brand relationships across social media. Colorful and striking graphics give advocates a dynamic representation to share.

Commercial and Fleet Vehicles

Commercial and fleet vehicles are a powerful branding medium that captures attention and impressions, whether standing still or on the move. Research from the American Trucking Association determined that vehicle advertising cannot be ignored, blocked or intentionally overlooked. In fact, 96% of their research respondents reported noticing truck-side ads.

Now it's your turn to get noticed on the road. Our short- and long-term premium solutions deliver vibrant and consistent color pop, with the ease of installation and removal to afford brands the opportunity to continually make a creative statement.

Floor Graphics

Floor graphics provide a powerful and impressive way of using vacant space to add extra dimension for interior spaces. Display marketing messaging or incorporate branded wayfinding in stores to create unique experiences for customers, as they navigate through spaces intuitively, with vibrant and easy-to-follow graphics. We offer overlaminates that are specially tested to comply with UL® slip resistance requirements. Pair floor films with DOL 1000, DOL 2000 or DOL 3000 series overlaminates and increase the durability of graphics to handle foot traffic.
