Avery Dennison®

MPI 1105 Series
with DOL Laminate

Fleet branding, vehicle wraps and outdoor signage

The ultimate wrapping solution, MPI 1105 brings new levels of printability and image quality on vehicle and outdoor graphics. Combine MPI 1105 digital cast film with either the DOL Z Series or DOL 6460 overlaminates to provide reliable and durable performance, outstanding color pop and 3D conformability around curves and deep recesses.

Features and Benefits

- Ensure each job is completed on time with reliable, high-quality print performance across all digital platforms: latex, solvent, eco-solvent and UV.

- Eliminate wrinkles and bubbles for quick and easy installation over complex curves and deep recesses with our Easy Apply™ and Easy Apply RS technology.

- Increased customer satisfaction with vibrant printed graphics and colors that pop – images more vibrant than the competition.*

- Clean removability after long-term lifespan – it removes more quickly than competing products.**

- Feel confident in your projects with the backing of the Avery Dennison ICS Warranty and technical support from our Avery Dennison Technical team.

- Protect demanding outdoor applications from scratching, UV and heat with the DOL Z series.

Recommended Uses

- Full or partial vehicle wraps
- Vehicle and truck branding
- Outdoor signage
- Boat wraps and graphics
